

KADEVI is also capable of manufacturing solar Azimuth Trackers. KADEVI has so far supplied 15 such trackers to SOLARIA INDIA LTD. These trackers move 270 degrees in azimuth and follow the sun in such a manner so as to receive maximum Sunlight and hence give more output as compared to static structures

Corporate office:  
**KADEVI INDUSTRIES LIMITED**  
A1 - A2, Electronic Complex,  
Kushaiguda, Hyderabad, A.P. India - 500062.

## About Kadevi

Kadevi was established in 1964 and started as a small scale industry manufacturing of Communication Antennas and Pneumatic Telescopic Masts. The objective of indigenous development of antennas in the MF, HF, VHF, UHF frequency bands catering essentially to defence requirements. During the course of four decades, several new antenna products were successfully developed and supplied.

Some of the products developed were import substitutes which resulted in a substantial saving of scarce foreign exchange at the time. The company was also awarded import substitution awards by ELCINA and AP State Government. Basing on its core strength in design, manufacture and testing of antennas. Kadevi has enlarged its antenna product line by the addition to its portfolio of Base Station Panel & Microwave antennas required for the telecom industry. Subsequently the company further expanded its wings into various manufacturing & service fields. Kadevi has rapidly grown to a large scale industry just in 3 years and have received several awards and became pioneer in all fields. Today the company is having 1000 plus strong manpower.

## Manufacturing Divisions

- Towers & Galvanising
- Telescopic & Guyed Masts
- Antenna Systems
- Steel Rolling Mill
- Fasteners
- AC Generators
- DC Generators

## Service Divisions

- Transmission & Distribution
- Tower Installations
- EPC & TSP

Kadevi is having a rare combination of full scaled infrastructure under one roof with state of art in house facilities right from manufacturing of steel sections, fabrication of towers & structures, Hot dip galvanising, Fasteners & Generators at Ankireddipally Plant. These facilities are fully equipped to ensure the highest level of quality and delivery timelines of customer.

Non conventional energy sources will be the future of mankind survival. estimates show that at the present rate of consumption the conventional energy sources would last at best another 70 years provided their consumption is streamlined.

KADEVI INDUSTRIES LTD has been in the field of Solar Power since 2010. KADEVI'S, inherent strength lies in its huge manufacturing and fabrication plant which can roll out a stock of 10,000 metric tons per annum. Kadevi also has a fasteners division which manufactures the required bolts nuts and washers thus meeting the internal requirement of the group. With a stringent quality control process and an indigenously developed material tracking software which gives minute to minute information on the processing status, in place, KADEVI has been maintaining an envious track record of timely deliveries.

Kadevi has so far supplied, erected and fixed solar modules on solar structures for a 10MW plant in Gujarat. The total scope of work involved, supply of 1390 structures with each structure containing 72 modules. The structures also included the hardware, erection and module fixing.

## Solar Tracker

Kadevi industries ltd had moved into the field of non conventional energy with the sole purpose of becoming part of this industry, and offers its services to all the industries in this field since it has the fabrication strength par excellence. with commitment to timely deliveries, as a major prelude, kadevi has successfully helped in establishment of a 10 Mw plant in gujrat by way of fabrication, supply & installation of nearly 1500 static structures in record time. the structure was manufactured based on the customer design/drawings.

kadevi has also manufactured solar trackers for a few vendors. these are azimuth trackers with a standard angle of inclination. kadevi ensured that the delivery of this order was completed before the scheduled time.

kadevi would like to offer similar services to all other firms at the most cost effective prices.

we are attaching our corporate profile in order to prove our credibility. please revert in case you feel that we can add value to your organization in any way.
